

Socioeconomic Data Reporting Guidance

This Socioeconomic Data Reporting Guidance is a reporting tool to assist state procurement units in properly identifying reporting exclusions for Small Business Reserve (SBR), Minority Business Enterprise (MBE), and Veteran-Owned Small Business Enterprise (VSBE) participation data reports.

State procurement units are required to submit quarterly and annual participation attainment data to the Governor's Office of Small, Minority & Women Business Affairs (GOSBA). Not all awards and payments can be counted towards the State's socioeconomic procurement programs participation. This guidance was prepared by GOSBA in collaboration with:

- Department of General Services (DGS)
- Office of the Comptroller (COM)
- Department of Budget and Management (DBM)
- GAD List Workgroup members

It is important for report preparers to have a general understanding of the SBR, MBE, and VSBE programs and procurement processes. This guidance is not an absolute list of inclusions and/or exclusions. Report preparers are expected to confer with their unit's procurement team for contract specific details.

Technical Assistance	
General Data Issues	
Issues impacting performance data should be reported to the designated SBR/MBE/VSBE compliance manager at GOSBA. Any issues that cannot be resolved prior to submission of the quarterly or annual participation data should be fully articulated in the NOTES section of the report.

Reporting Best Practices

- Pull quarterly and annual report data in a timely manner to meet the due dates
- Ensure quality assurance and thoroughly review data for errors and omission (ex. system errors, clerical errors)
- Keep two datasets:
 - (1) raw - preserves the data integrity
 - (2) scrubbed - normalizes and cleanses the data
- Collaborate with all necessary internal stakeholders to ensure the report has been verified for data quality assurance prior to final submission to GOSBA
- Identify statewide and delegated contracts to ensure proper counting
- Collaborate with staff members that enter codes in FMIS for clarification data input procedures
 - Some procurement units have their own Agency object code (AOBJ) Crosswalk which rolls up to Comptroller Object Codes.

Scrubbing Data

The report preparer is expected to scrub the raw data to correct or remove errors, redundancies, incomplete data, or data that should be excluded from participation data.

1. Pull appropriate data reports from the procurement and accounting system of record. (i.e ANSWERS, iFMIS, PeopleSoft))
 2. Organize necessary data by program (Specific instructions are available in each program's reporting manual found in the reporting toolkits: [SBR Reporting Toolkit](#), [MBE Reporting Toolkit](#), and [VSBE Reporting Toolkit](#))
 3. Carefully review all Direct Voucher and Prime Vouchers as inaccurate reporting will affect the data output.
 - Direct Vouchers
 - One time payments, primarily Small Procurements Cat I & II
 - Reported as both an award and a payment
 - Prime Vouchers
 - Made from a BPO/PO
 - Reported as a payment only
 4. Cross reference this guidance for each socioeconomic program award and payment data report to ensure the necessary line items are reported accurately.
