Governor's Certification

If a Governor certifies that at least five (5) small businesses in a disaster area have suffered substantial economic injury as a result of the disaster, and need financial assistance not available on reasonable terms, SBA activates its Economic Injury Disaster Loan (EIDL) program only.

Note: Physical disaster loans are not available under this type of declaration.

These working capital loans may be used to pay fixed debts, payroll, accounts payable, and other bills that could have been paid had the disaster not occurred. The loans are not intended to replace lost sales or profits.

The filing deadline is **9 months** from the date of the declaration.
